I just got off the phone with Heather at FDEP and have a bit of an update on the Bio-Op but unless others have input I believe I can summarize here and free people up instead of a call today.

Heather indicated that DOI has requested to form a workgroup with NMFS, USFWS, and FDEP to ensure the Bio-Op process runs smoothly. There was an attempt to organize a call with this group prior to the Holidays but it fell through and Heather expects one to be schedule in the very near future. Until that time she had no further updates on the process but indicated she would reach out as soon as the initial call happens. She did mention that they had no publication date for their Rules

Ex. 5 AC/DP

Heather said that her team is still working on the assumption package but her entire team is in delineation training this week so there are no updates on that front either.

Our first bi-weekly call with FDEP is scheduled for Jan 28 and FDEP believes that an in-person meeting would probably be most beneficial if pushed until at least February.

Sorry, I did not get this message late yesterday. My thought is we may want to spend 10 min to figure out where the Bio-Op is and so we all have a common understanding of the process and next steps. Not sure I know what the process and status of the consultation on FL's program are.

I'm sorry, but I will not be able to join the call tomorrow. I'd be glad to catch up later in the week on any OGC issues.

Will you be discussing ESA issues? If so, Alexis, are you free to join?
